

## AMENDMENTS TO THE SPECIFICATION

Please amend the specification as follows:

Please amend paragraph [0002] (page 2, lines 11-14) as follows:

[0002] Due to the shape of the vehicle, the trajectory of the rear side windows on cabriolet vehicles is usually curved with at least one inflection (a change of curvature from convex to concave or vice versa). This means that mechanisms to operate these windows are complex and costly.
